

## **Week 10: Daily Morning Challenge**

### **Day 1: Tuesday 12th March 2020**

**Question 1:** Describe the concept of connectionist computing approach as regards biological neural networks

**Question 2:** Illustrate with a table the benefits and limitations of the following data mining techniques

- Regression (Linear & Multivariate)
- Concept learning (List-then-Eliminate)
- Decision tree
- Naive Bayes
- Artificial Neural Networks
